

About Us

Founded in 1979, profitable and growing, The Stack Group provide a comprehensive range of IT services and solutions from cabling through to cloud services. Our offerings encompass all aspects of virtualisation, business continuity, data storage, networking and security.

With two wholly-owned, UK-based, ISO27001 accredited datacentres, all of our vSTAX® Cloud Solutions are industry certified and comply with EU regulations.

From our office locations in Liverpool and London, we provide leading edge technologies to client locations across the UK.

Our Data Centres

The Stack Group owns and operates two Tier II data centres in the UK, ensuring no issues with governance or compliance for EU legislation and data control. Each data centre has dual air conditioning, dual power with standby generator, multi route connectivity and network infrastructures, resilient storage area networks and a highly available, fault tolerant, load balanced server infrastructure, all of which are monitored 24 x 7 x 365 with automated fire suppression. Accredited to the highest standard and BS9001/ISO27001 compliant, our datacentres support hundreds of companies across the country.

Our Customers

Why Choose Stack?

Our vSTAX cloud solutions fully integrate with any existing cloud services you already have.

We are an approved vendor partner for many industry leading suppliers.

We are a national company with a local feel because we always personalise our business.

We hold the highest level of accreditations in ISO 9001, and ISO27001 as well as being Cloud Industry Forum (CIF) Certified.

All of our data centres are UK based and adhere to EU legislation on data control.

Our extensive product and service portfolio means that we are one of the few companies within the UK who can provide such a comprehensive integration of services.

With over 35 years of experience within the industry, we are one of the most trusted IT Solutions Providers in the UK.
